

ULTRA TRAIL AMAZON REGULATION

CHAPTER I - THE SPORTING EVENT

1- MOTIVATION AND SPORT AND CULTURAL PURPOSE

The objective of ULTRA TRAIL AMAZÔNICA is to provide participants experiences of contact and living with culture and nature from Amazon, visiting previously unexplored places, aligning sport, nature, security, entertainment, and competitiveness, together with preservation and environmental awareness.

When registering for the Amazon Ultra Trail, athletes are invited to connect deeply with the rhythms of nature and with the diversity of fauna and flora. In addition to the challenge of running itself, whether by distance, climate and course, the unique characteristics of a jungle run make the event even more exciting. The forest operates at its own pace and unraveling it is the biggest challenge!

The event will take place in 3 days, the routes will always go through trails in through the Amazon rainforest and Rio Negro beaches and tributaries, in the pedestrian and mountain biking options.

There will be 3 days of running, with distances per stage, in the Mult Day Survivor model (self-sufficient athlete), with mandatory stop at the end of each stage as follows:

1st day - from 30k to 45k

2nd day - from 90k to 100k

3rd day - from 100k to 110k and the alternative routes of 8k, 16k and 21k

The variations in distances are due to respect for the Amazonian nature, as depends exclusively on the ebb of the Rio Negro, which will be decisive for the final tracing of distances in the interval mentioned above, in the end of September and mid-October, when the routes will be presented in their wholeness.

The total distance of the courses for the main 3-day event vary between 220k and 255k.

There are options to participate for just one or two days, in a row or alternating.

2- AMAZON EXPERIENCE

Athletes registered for the 3-day course will pass through 4 indigenous communities and 05 riverside communities, will be presented in dance form at the 1st day the indigenous culture, as well as the food and overnight experience among the 3 days in both indigenous and riverside communities, in addition to overnight stays, athletes will be invited to learn about the culture and habits of people who are in deep tune with the Amazon and its charms.

A jungle experience is not something that people are commonly prepared, so everyone will undergo survival training in the Jungle so that they can safely venture and overcome their limits. Survival instruction in the jungle will take place on the 1st day after accreditation.

All access to the event venues is only done by river, with an average distance of 1h20min to 20min from Manaus.

To ensure the well-being of the participants and to allow them to focus on their performance and enjoy the location, Ultra Trail Amazônica will offer a safety and hydration structure, and athletes can count on medical teams, rescue teams, ambulance boats, and emergency ambulances. The route will be objectively signposted, easily visible and with signs indicating the direction of the control points that will have hydration and support to athletes.

3- MEDICAL GUIDELINES:

The runner's safety is a primary concern at all To Goal Sports events, working closely with the rules and requirements of private health teams and public emergency, to ensure from the beginning to the end of the race and throughout its journey, health, well-being, and prompt service to needs of all runners, spectators, volunteers, and staff.

We also recommend that all participants follow simple precautions for a nice and pleasant experience during the event:

- Respect the distance: only participate in the route if you are properly physically trained and prepared to complete the total distance;
- Respect your health: consider consulting your doctor when planning to participate in one of our events;
- Respect your body: if you are hurt, or feel fever symptoms, weakness, diarrhea or vomiting before or during the event and that may prevent you from being physically prepared to run the distance chosen, we recommend that you consider not participating or abandoning the event;
- Respect your routine: Do not make major changes in training and hydration in the days before the race. On race day, a rule simple is to "drink your thirst" that is, do not ingest more than you need and prefer water and sports drinks to stay hydrated and maintain sodium levels, and lastly, do not wear new sneakers for the first or second time in race day;
- Respect the climate: stay tuned for the weather forecast and adapt to the climatic conditions, and in Manaus, due to humidity and heat, use

sunscreen and prefer light clothes and the shirt provided by the race, ideal for the event;

- If you feel something different than usual, look for our medical team at the start, along the route or on arrival, review the route map and check the service locations and medical posts. Every Medical Post has water, isotonic, toilets, medical facilities and access to emergency transport or removal from the site in case the race is not completed;
